Many forfeitures are about to accrue, from failure to pay texest many claims, otherwise good, will be barred by adverse possession of three years—that being the limitation; many titles of lands conveyed in the United States, cannot be admitted to record in Texas, for want of proper authentication. Owing to some one or other of these causes, the best lands are in a condition to be lost.

Having made it my business to become acquainted with all the laws relating to titles, and being determined to attend diligently to all claims confided to me, I require, in all cases, an advance in cash, sufficient to cover expenses of investigation. When that shall be done, I am willing to take a contingent interest in the lands for attention and services.

GREATEST WONDER OF THE AGE.

PATENT GALVANIC RING, AND MAGNETIC FLUID.—These wonderful Rings, and the Galvanie Fluid, have created a great sensation throughout Europe, and are attracting crowds to see them, both in New York and Boston. They cure with astonishing rapidity rheumatism, gout, tic-doloreux, fits, cramp, sick headache, indigestion, paralysis, stiff joints, general debility, deficiency of nervous energy, and all nervous disorders. They produce all the beneficial results of the ordinary galvanic battery, or electric and magnetic machines, without the injurious shocks which always accompany their application. The secret of preparing the Ring was discovered by Professor Harmance Christie, of London, in October last, and they have been recently introduced into this country by Dr. A. Christic, who warms the American public, from the beginning, to beware of spurious imitations. To guard against fraud, he will appoint but one agency in each of the cities of the United States.

The regular course of instruction in this school is similar to that of the best institutions of the country. Clinical instructions will be given daily at the Charity Hospital in the various branches of medicine. The professors being the attending surgeons and physicians to this extensive institution during the session of the school, have every opportunity of making their lectures practical and thorough.

The Professor of Obstetrica having under his entire control the female wards of the hospital, is enabled to exhibit to the class those diseases peculiar to the sex, and also to furnish the senior members as many cases of labor as are necessary to give them a practical acquaintance with this important branch.

The facilities for prosecuting the study of practical anatomy and operative surgery are unrivalled—subjects being supplied in any number, free of charge.

OREGON AND CHINESE WHEAT.—Just received a few sacks of the above new and superior seed grain, from H. R. Smeltzer, esq., of Bloomfield farm. The Oregon is a red kernel wheat, and the Chinese a beautiful plump white kernel. These extraordinary varieties produced Mr. S. last season 45 to 50 bushels of wheat per acre, weighing 63 to 68 lbs. per bushel.

"OREGON AND CHINA WHEAT.—There have been left at our office two few species of wheat—one called 'Oregon,' the other 'China.' It was taken from the Bloomfield estate, belonging to Henry R. Smeltzer, near Middletown, Frederick county, Maryland. The 'Oregon' wheat was found or discovered by a missionary travelling through that territory, who brought it to this country in 1839. Mr. Smeltzer, this year raised from four and a quarter acrea, 212 bushels and 43 lbs., which is a fraction over 50 bushels to the acre. This wheat is very hardy, of a beautiful red color, with smooth chaff, heads from 5 to 6 inches long, and average from 90 to 130 grains to the head. It is believed it will yield at least 20 per cent. more to the acre than the ordinary wheat, from the fact that it has from 15 to 20 grains more to the head. The history of the China wheat is rather singular. A few heads were found in a box of China-ware imported from the north of China; and the heads being so very large and compact, the discoverer was induced to plant them. Mr. S. informs us that last year he raised 421 bushels per acre. This is a beautiful white wheat, and has heads or care about as long as the 'Oregon' wheat, and about the same number of grains to the head. The 'China'

BUTLER COAL.—The subscriber has on hand one thousand tons of that superior article so well known in this District, suitable for graces or stores; and would call the attention of the public to supply themselves as soon as possible; freights are advancing, and there is quite an advantage in getting their coal in dry weather. I would particularly call the attention of persons using radiators, as I have an article that is broken expressly for that kind of stoves. There will be a certificate of weight sent with each load.

JOHN PETTIBONE.

Orders received at the coal office, on Pennsylvania avenue, opposite Coleman's Hotel; or at the yard, corner of Maryland avenue and 13th street, near the Long Bridge.
